### Service Requisitions Replace the MIS-O-GRAM

MIS-O-GRAM functions are being replaced by a more robust Service Requisition function. The type of Service Requisition you can enter is determined by your clinical role. Your sign-on code will give you access to the appropriate Service Requisitions.

#### Ordering a “Patient-Specific Service Requisition”

- Select the patient’s name
- Select “Order Entry” icon
- Type name of Service Request using the “Manual Entry Method” or “browse” through the larger categories.
- Select “Add.”
- Minimally, fill in the required fields indicated with a  .
- If you are not sure a Patient-Specific Service Requisition has been placed (for example, a Bioethics Consult), you can click on Orders tab to view what has previously been entered.

#### Messenger & Escort . . . What’s Different?

- Messenger & Escort Services can be requested to pick-up blood products and transport patients by placing a CRIS Service Requisition and filling out the required fields.
- If Messenger & Escort are needed to pick-up and deliver specimens or non-specimen items, you will need to call them at **301-496-9295**. This may be a change for some PCU’s.

### Hospital Service Requisitions

As usual, these non-patient Hospital Service Requisitions are available from the Standard Clinical Desktop (<http://supply.cc.nih.gov/serlet/control>):

#### CHS Home

- New Order
- Non-Order Inventory
- Order Summaries

#### Equipment Services

- Non-Routine Pickup
- Order Summaries

#### Building Services

#### Emergency Stock Replacement

#### Messenger and Escort (In the Future)

#### Housekeeping (In the Future)

#### Ambulance Request (In the Future)
